

CS-3

Production Case for 302 Mixer and 7-Series Portable Recorders

CS-3 shown with 722 Portable Recorder

The CS-3 is a high-performance production case designed for the 302, MixPre, and 7-Series audio recorders. Intended to be used during operation, the CS-3 holds the mixer or recorder with any sized removable battery. Its full-sized front pocket is perfect for holding up to three wireless transmitter/receivers. Additionally, it can accommodate PortaBrace RM-series accessories on its front or can be mounted to the front of Sound Devices CS-4W (442 Mixer) bag. The CS-3 is built for Sound Devices by Camrade.

FEATURES

- Easy access to front panel control surface
- Full length side-exit cable and controller access
- Generous space below device to accommodate any depth removable battery with 7-Series recorders
- Clear windowed cover for viewing front panel during covered operation
- Full sized front pocket can be used for wireless receivers, or accessory storage
- High-quality padded leather shoulder strap with metal clasps

OPERATIONAL NOTES

- When using the CS-3 with a MixPre or 302, use the included padded riser to raise the level of the unit so that its control surface is level with the bag opening.
